

STUDENTS AGAIN GO ON RAMPAGE

Five Arrested as Result of
Wild Night Scene at
Temple Street
Bridge.

TWO OFFICERS ARE HURT IN MELEE

Band First Attempted to
Enter the New Haven
Theater—Set the
Bridge Afire.

Another student outbreak that proved one of the most serious outbreaks since the big Pierson hall trouble of a couple of years ago occurred last evening with the trouble zone of the Temple street railroad bridge and Freshman row as the center of the disturbance. The first symptoms of the disturbance came early in the evening when a crowd of students gathered at Poll's theater and attempted to make their way in. They were repulsed, and shortly after in a body they rushed the New Haven. The crowd swept by the ticket gatherer and through the wide foyer with ease. Mounting the steps they attempted to get into the orchestra floor but the police on duty there with the ushers turned back the stream and they rushed out again. A hurry call was sent to the police and Sergeant Gibson at once hurried a squad of seven to the theater, but when they arrived there was no one of the disturbers in sight and they returned empty handed.

The students then took their way to Temple street and began the wind up and most serious part of the evening there. They started a bonfire on the sidewalk of the bridge, which required the calling out of the chemical department from the central engine house to extinguish, and which did considerable damage to the bridge in the bargain. The railing and the sidewalk were badly burned. The lights of the street lamps were smashed by the rioters and so had a rumpus created that another hurry call for the police was sent in. This time eight officers went up in the wagon and on their return they had with them four students who were captured on the scene. All were young fellows. They are Robert LaMontagne, who is a second year man in the Sheffield scientific school, and who is nineteen years of age; Waldo D. Frank, eighteen, of 200 York street, who is a freshman in the academic department; Robert Goldman, another freshman in the same department, who is but seventeen years of age, and John B. Westcott of the academic department. LaMontagne is a prominent member of his class, being one of the runners on his class track team, which earned him his numerals and a members of the Colony society. He was quickly bailed out. Westcott and the other two men were let out a little later on bail.

The police went out determined to make an example of any they caught as a warning that these riots and escapades must cease. LaMontagne, it is said, was caught painting numerals on the fence. Earlier in the evening another student by the name of Edwin Fisher was arrested for painting the bridge. He, with the four taken later, will face the court this morning on charges of injury to railroad property. He rooms at 412 Temple street and is twenty years of age.

In the work of the arrests two of the officers were injured. Deskin had his left hand badly sprained as the result of a fall. He put his hand out to save himself and fell with all his weight upon it. He fell among some glass and some of that may have penetrated the hand. He was relieved from duty on his return to headquarters, and attended by Surgeon Spier. Officer Gallagher was also hurt. An attempt was made, it is said, to get one of the prisoners away from him and in the tussle he was hurt on the head.

RAILROAD INVESTIGATION

To Probe Relations of Consolidated and the Boston and Maine.

Washington, Oct. 9.—Assistant Attorney General Purdy left to-day for Boston, where, it is understood, he will confer with the United States district attorney of that district regarding the investigation now being conducted as to the relations of the New York, New Haven & Hartford, and the Boston & Maine railroads.

BITTER IN NECK BY DOG.

Louisa Carvota, a young school girl of 88 Lafayette place, was bitten by a large dog owned by Morris Kopper of 15 Lafayette place yesterday afternoon. The dog is a large one and bit the girl badly in the neck. It was not expected that there would be any serious results from the bite, however.

MILD SENTENCE

Judge Surprised at Verdict, But Imposes Penalty.

Bridgeport, Oct. 9.—John Bunes, of Greenwich, was found guilty to-day by a jury in the superior criminal court on a charge of criminal assault on Susie Mike, aged six of Greenwich. When the verdict was announced Judge Wheeler expressed surprise, saying that the evidence hardly warranted conviction on the charge. Were the court convinced of the prisoner's guilt, he said a severe sentence would have been imposed. Under the conditions, however, he would impose a mild sentence, and then announced the penalty as from seven to ten years in state prison.

COTTON MEN ORGANIZE

Formation at Atlanta of an International Association.

Atlanta, Ga., Oct. 9.—The international conference of cotton spinners and growers this afternoon decided to form a permanent organization, which will include not only the associations now affiliated, but also the continental spinners' association of Europe, and the Sea Island Cotton Growers' association. The first meeting of the new worldwide organization may possibly be held in Paris next year, as the International Cotton Spinners' association of Europe meets there, and Herr Kautler of Vienna stated this afternoon that delegates from all organizations will be invited to attend.

HOLD NIGHT COURT

Man Charged With Stealing Artist's Shirt the Prisoner.

HE WORE THE GARMENT

Bound Over to the Superior Court by Deputy Judge Munson.

Arrested for stealing a shirt and sundry other articles of clothing from the home of L. B. Brown at Mount Carmel, Luigi Longobardi was bound over to the superior court at an evening session of the Hamden town court. Mr. Brown, who is an artist, has a home on the Brewster place at Mount Carmel, but this summer he and his family spent most of the time away. On three different occasions the house was broken into and among the things taken each time was wearing apparel. Detective Webb was engaged by Mr. Brown to work on the case and see who was doing the breaking into his house and yesterday afternoon met Longobardi on the street and recognized a fine quality blue shirt of a peculiar pattern which he had on. He got Detective James Ward of the regular service to detain the man until Mr. Brown could be brought to identify his property. Mr. Brown said that not only the shirt belonged to him, but the shoes which the man had on, also, and the officer took his prisoner to Hamden.

There, following the custom recently started in New York, a night court was held in the town hall, with Deputy Judge Edgar W. Munson on the bench. Charges of burglary on three counts were made against Longobardi and after a brief statement of the case by Prosecuting Attorney Charles F. Clark, Judge Munson bound the man over to the higher court under \$1,000 bonds.

The charge against Longobardi is burglary instead of theft, as the house he broke into was unoccupied at the time. It is said that several other houses in the vicinity were entered during the summer.

FOR STEALING BOOKS

Sophomore at Yale Caught In the Malley Store.

Thomas Rufus Tracy, a member of the sophomore class at Yale in the academic department, was arrested yesterday afternoon in the Edward Malley company store and is held for court this morning on four counts of theft. The arrest was made by Detective Sergeant Dennehy, Tracy, whose home is in Whitney Point, New York, was caught in the store in the act, it is said, of stealing books and a pile of books which he had with him were found to be the property of the Edward Malley and the Judd companies. The books were not text books, but included among the subject a volume on Longfellow by Charles Eliot Norton, "The Rubaiyat of Omar Khayyam," and Charles Dickens' "Cricket on the Hearth." The other books were of the same type and some were hand-some works. There also included an October magazine. The student rooms in Lawrence hall. Other counts may be brought against him than the four, which were entered last night.

BROUGHT TO LOCAL HOSPITAL.

Mrs. Ivan Nott, the young woman who was shot three times by a man in Torrington, where she was visiting on Tuesday, was brought to the New Haven hospital yesterday afternoon for treatment. Three bullet wounds are in the left chest, the arm and the shoulder. Mrs. Nott lives in Berlin. She is not expected to die as the result of the shooting.

ROWLEY SELECTED TO SUCCEED HAYES

Resignation of Sergeant Finally Read Before the Meeting of Police Board.

TEN NEW OFFICERS PLACED ON FORCE

Four Named to Start Duties To-day While Six Go On In December.

At the meeting of the police commissioners held last evening, which was an adjourned meeting from the last regular session, the resignation from Sergeant Michael Hayes, which has been rumored again and again during the past two months, was read and accepted by the commissioners. The sergeant went away on a western trip just after the Fourth of July on a month's leave of absence and failed to return to the force. At every meeting held by the board it has been expected that the formal resignation would appear, but it did not come up until last evening. It was sent in written and gave as the cause of leaving business interests.

The board lost no time in appointing to succeed Hayes Patrolman George L. Rowley of Station 1. Rowley was appointed a supernumerary in January of 1901, and in the following year he was given regular duty on the force. He was appointed to grade A on January 20, 1895, and has since then been an efficient and capable officer. His appointment was received with approval by his fellow members on the force. Rowley was born in Sharon, this state, and is forty-three years of age. The appointments dates from to-day.

Ten new appointments were made to the regular force from the list of supernumeraries, of which four will become effective to-day, while the other six will be on duty from December 15 next. The four who go on to-day are James J. Maloney, Joseph A. Brown, William E. Leddy and John J. Cain. The six whose appointments date from December are Philip F. Reilly, John E. M. Kinney, F. A. Keenan, Thomas E. McCann, Francis A. McDermott and John A. Dwyer.

The estimates for the coming year were gone over and approved for presentation to the board of finance to-day, but nothing on them was given out in advance of their presentation to that body. The matter of increased salaries in the police department was considered on the report of a special committee, and the report in favor of asking for an increase. This was not incorporated in the estimates, which will be sent in, however. A committee was appointed, which will appear before the board of finance, to ask that the pay in the police department be increased, and if this request is granted the increase will be determined in lump by the finance board, and afterward distributed by the board of police commissioners. No amount will be specified by the police board when the request is presented.

Patrolman Patrick J. Brown was raised from grade E to grade B. A letter was sent by the commissioners to the students who caused the arrest of the negro, Jasper Johnson, commending them for their action. The following were made special constables at the request of various corporations: James J. Reynolds, Martin Fazio, Robert Winline and Thomas J. O'Connor.

MUCH OPPOSITION

Congregationalists Against Plan of Uniting With Other Churches.

Cleveland, Oct. 9.—A decided opposition to the detailed plan of uniting with the Methodist Protestants and United Brethren churches developed at to-day's session of the national Congregational council. A committee of twenty-one under the chairmanship of Rev. Dr. Nehemiah Boynton of Boston, sitting as a court, heard arguments for and against the plan of amalgamation.

The Congregationalists believe in the individualism of the various churches and insist upon this, while the Methodist Protestants and United Brethren want the churches governed by district conferences, and these in turn to be controlled by the national conference.

STORMS IN FRANCE

Heavy Damage to Ships and Other Property.

Paris, Oct. 9.—Continuous heavy rains have caused serious floods in many parts of France. Up to the present few deaths have been reported, but fears are entertained that the casualty list will grow. The damage has been heavy. The principal rivers to overflow their banks are the Rhone, the Loire and the Tarn.

A cyclone descended on the Riviera and several ships were driven ashore.

CANADA FEARS COMPETITION.

Ottawa, Ont., Oct. 9.—The Canadian manufacturers of pulp and paper waited on the government to-day and asked for the prohibition of the export of wood pulp. Sir Wilfrid Laurier said that the matter would be taken into consideration. Their chief argument is that American paper manufacturers will be compelled to establish mills in Canada if deprived of Canadian pulp wood.

MAYOR-ELECT

SPEAKS OUT

Declares Out-and-Out That He Will Not Consider Appointments Now.

GOING ON FOOT

GUARD EXPEDITION

When He Gets Back He Will Take Up the All-Important Matter, Not Before.

Rumor and gossip have been doing their best to declare for Mayor-elect Martin that he has already prepared part of the list of the appointments which he is going to make when he comes into the mayor's office in January. Many of the stories have purported to announce the candidates for office under the new administration as already assumed of their appointments. To these prophets the statement issued by Mr. Martin himself last evening brings somewhat of an awakening.

The mayor-elect declared most emphatically last evening that he had not taken up the matter of his appointments and that he would absolutely not consider the subject for some time to come. He states that he will not take up the matter until after the Foot Guard trip to the Jamestown exposition and that reports that he had already determined who his appointments would be was not so. The consideration of the candidates for appointment will be held until nearer the time for the making of the appointments as Mr. Martin does not wish to take up that rather remote matter immediately after the result of the election is announced.

U. S. CLERK VINDICATED

Charged With Embezzlement of \$3,000 in Gold Certificates.

Boston, Oct. 9.—The jury in the United States district court, which has been hearing the case of former Vault Clerk John W. Hastings, charged with the embezzlement of \$3,000 in gold certificates from the United States sub-treasury in this city, came to late to-day and reported a disagreement. Judge Dodge thereupon ordered the discharge of the jury.

A hortage of \$3,000 in a package of \$100,000 sent from the Boston sub-treasury to the treasury at Washington, and the fact that Hastings was the last to check off the package in the Boston office, led to his arrest.

PROM COMMITTEE

Juniors Elect Nine Members To Arrange for Big Social Event.

The members of the junior class in the academic department of Yale held their last night in Osborn hall and elected nine members to constitute a committee to arrange for the annual junior promenade to be held the last Tuesday in January.

The election to the junior prom committee is one of the greatest honors which can be voted a person, and there were a large number of nominees, of which the following were the successful ones: John Bates Perrin of Indianapolis; Robert Boyd Burch of Cincinnati; James Merriam Howard of Montclair, N. J.; Mortimer Ashmead Seabury of Wellesley Hills; Harvey Hollister Bundy of Grand Rapids; James Benton Grant of Denver; Francis Howard Olmsted of Lakeville and Howard Carter Davis of Ellsworth, N. H.

Perrin, who received the largest number of votes, will be chairman of the committee, and Burch, who received the second number, will be the freshman manager. Burch is manager of the freshman crew and Burch is on the "varsity" eleven.

MANY SALARIES TO BE INCREASED

If Sums Asked by Health Board Are Approved By Financial Board for 1908.

HEALTH OFFICER WANTS \$500 MORE

Clerk and Milk and Food Inspectors in the List—Large Bacteriological Raise.

The estimates presented by the board of health for the consideration of the board of finance as the amount needed to run that department during the year of 1908 were filed yesterday with the city clerk, and call for a total of \$28,500. This is \$3,200 more than was granted to that department last year by the finance board. There is a request for an increase in the pay of Health Officer Wright of \$500, the board asking \$2,500 as the salary for that position, which at present is being paid \$2,000. For the clerk of the board an increase of \$300 has been put in to raise him from \$1,200 to \$1,500. The salary of the plumbing inspector will be raised \$300 if the plans of the board are approved, as it has put in a request for \$1,500 in this office also. The four sanitary inspectors, according to the schedule presented, are to remain the same, there being \$4,000 asked for their compensation. The milk and food inspector is to have \$200 more, which will raise him to \$1,200, and the second to him will also go up \$200 to \$1,000. Medical inspectors of schools is down for the same as that granted last year, namely, \$1,300, removing garbage will be kept at the same figure, which is \$1,000; contagious diseases is held worthy of \$500, which was received last year, and bacteriological work goes up from \$900 last year to \$1,500. There is also something quite new at the end of the list, namely, a request for \$600 for a nurse for the public schools.

Among the most notable of the raises in the amounts asked for are in the increase of \$500 which is asked to raise the salary of the health officer, and the increase in the account for bacteriological work. This has been increased this year \$500 over the sum asked for last year, showing a large increase in the expenditure for that department. The pay offered in that department has been very low. Dr. Archibald McNeill, who was there until a couple of years ago, receiving for many years between \$700 and \$800 a year. It seems probable that the salary for the new man who took up the work of the department after Dr. McNeill's resignation, will be considerably in excess of the sum which the city was paying in former years. If the entire sum asked for by the department is granted this year.

COLLISION NEAR FITCHBURG

Two Trainsmen Badly Hurt and Five Passengers Injured.

Fitchburg, Mass., Oct. 9.—The afternoon express train from Boston to Montreal, which runs over the Fitchburg division of the Boston & Maine railroad, ran into the rear end of a freight train in North Loomis, four miles east of Fitchburg to-day. The engineer and fireman of the express were seriously injured and five of the passengers were slightly hurt. The freight train was an extra running from Boston to Fitchburg. The engineer observed a signal indicating that a passenger train was following. He attempted to make a siding and sent a brakeman back 200 yards, but before the express train could be stopped the locomotive struck the caboose of the freight, totally destroying it. The engineer of the express train, Henry Case, of Lunenburg, sustained a fractured leg. His fireman, Albert H. French, was pitched headlong from the cab onto the parallel track and was injured internally. The passenger coaches did not leave the rails, but the occupants were shaken up and five of them cut and bruised. The freight cars were not badly damaged.

GERMANY NEEDS MONEY.

Berlin, Oct. 9.—Rumors are in circulation here that the empire is soon to raise a new loan. The Tagblatt, in its issue of to-day, shows that the various credits already authorized, but not realized, amount to \$35,500,000. The paper says it is informed in official quarters that the government is trying to postpone a loan until after the new year and possibly until next April. In the meanwhile it will raise money to meet pressing wants at the Reichbank upon treasury bills.

PROF. KLEIN LECTURES.

Boston, Oct. 9.—The sixty-ninth annual course of lectures of the Lowell Institute was opened to-night by M. L'Abus Felix Klein, professor at the Institute Catholique of Paris, who gave the first of a series of four lectures on "The Political-Religious Crisis in France." The opening lecture was upon "The Church and the Third Republic," and was delivered before a distinguished audience in Huntington hall, Massachusetts Institute of Technology.

GENERAL PORTER SPEAKS

Hague Approves the Proposition Concerning Contractual Debts.

The Hague, Oct. 9.—The discussion of the report of James Brown Scott (American) on the proposed international high court of justice began to-day. Among the speakers was Dr. Ruy Barbosa (Brazil), who emphatically resented the allegation that he was in any way antagonistic to the United States. The discussion was adjourned until to-morrow.

The committee on maritime war to-day, after a brief but appropriate speech by General Horace Porter (American), approved the proposition on the subject of contractual debts, the vote standing 23 to 1 in its favor.

IMPATIENT FOR RACE

Sweden Waiting for New York Yacht Club's Acceptance.

Stockholm, Oct. 9.—The reply of the New York Yacht club to the Swedish challenge to a series of races for the America's cup is expected here to-morrow. Swedish sailmakers already are engaged to work on the challenger, and from all parts of the country come requests to be allowed to participate in the subscription to meet the cost of the challenger, and over-subscription is expected before November 10.

STRIKE NEARS END

Master Plumbers Declare Settlement Must Be Made at Once.

COMPLAINTS THE CAUSE

Journeymen Consider Compromise, But No Decision Yet.

If anything is to be judged by the generally accepted rumor circulating about town yesterday, the strike of the tinsmiths and metal workers will come to a head at once. A settlement would be agreeable news to the many customers of the plumbers whose furnace repairs and kindred work have been held up for ten days. Many complaints are being received by the masters, one of whom declared last night that unless an offer of arbitration is advanced by the journeymen immediately the strike-breakers with whom the committee has been in touch will be brought in to fill the places of the men out.

It is said that the better workers among the men are desirous of securing a compromise and of returning to work. A labor official last evening admitted this condition, but said that the majority of the men continue to maintain that their demands are only fair and that they cannot accept less.

ENTERS PAINTER'S STUDIO

Local Italian Held for Hamden Burglaries.

Luigi Longobardi, an Italian of 692 Grand avenue, was arrested yesterday by Detective Ward of the local staff on three counts of burglary of the studio of John H. I. Downs, a painter, of Hamden. It is alleged that three times during the summer he entered Downs' house and stole clothes, painting implements and materials and other goods. The arrested man is 22 years of age.

CHINESE ENTHUSE

Like Taft's Sentiments Regarding Open Door. Other Matters.

Shanghai, Oct. 9.—The comment of the Chinese press, officials and people on the visit to Shanghai of War Secretary Taft is most enthusiastic. The general feeling of the Chinese on the utterances of Mr. Taft may be summarized as follows: "The United States will not sell the Philippine Islands, an assurance which is welcomed as it means that there will be no extension of Japanese influence and a continuance of American influence in the far east."

"The Chinese desire to interpret Mr. Taft's statement reiterating that the United States favors the open door policy in China as being unofficial, but at the same time made on high authority and indicating that the United States will support it in China and maintain the policy in Manchuria, the only place where the open door is threatened."

"Mr. Taft's endorsement of the United States court for China, over which Judge Willey presides, is looked upon as meaning a continuance of the new era of justice and as demonstrating that the United States is really interested in China, as shown by the acts which follow her assurances on the subject."

"The enthusiastic welcome accorded to Mr. Taft here atones for the boycott of American goods and demonstrates China's friendship for America."

"The assurances given in regard to fair treatment of the emigration question are accepted in good faith."

NO NEW INCREASE GIVEN TEACHERS

Estimates of the Education Board for Salaries Set at the Adopted Schedule.

THREE NEW SCHOOLS ON LIST SUBMITTED

Large Increase in Amount Asked Over Sum Granted Last Year.

At a special meeting held last evening at which every member of the board was present the board of education considered and took final action on the estimates which that body will present this year to the board of finance at its meeting to-day as the amount of money required to run that part of the city system during the coming year. The largest item, that of teachers' salaries, was based upon the new schedule which was adopted by the board last spring and calls for a total of \$391,248, which is an increase of \$76,353 over the amount appropriated last year. There was no change considered in connection with the request of the teachers that their schedule be adopted. No action was taken on the information and representations made by the committee from the mass meeting of July 2, the school committee announcing that it had read over the data furnished which it found relative to the establishment of a schedule in the high school only and that a report would be made by the committee on the matter at a later meeting.

For night school teachers there was asked a sum of \$5,000 which is an increase of \$500 over that given last year. School officers are increased to \$8,067 from \$7,800, which includes general increases in the salaries of the secretary and the clerks in the offices of the board.

Under the item of fuel is presented the sum of \$43,462, which is an increase from \$21,000 given last year as the board is asking for a sum sufficient to purchase enough fuel to get back to the old method of purchasing at the lowest priced season and this sum really includes a year and a half of supply.

Janitors' salaries are down for \$46,015 for day schools, whereas \$36,980 was required last year, there being an increase granted in this part of the department also.

Apparatus and library is down for \$2,300 and laboratory supplies at \$1,200.

New closets are asked for at the Webster and Wooster schools which call for \$7,000; there is a furniture and equipment account for the high school which is down for \$5,150, and there is also a request that cooking and manual training equipment be installed in the Orange street school at the cost of \$500.

Under the caption of special expenses there comes, first of all, an item of \$11,000 which is for the equipment of the Ivy street school, which is now nearing completion. Another of \$2,000 is asked for filling, grading and fences at the same school. The board then puts in its requests for more school facilities. This is started by asking for additional land at the Barnes avenue school, at \$1,600, and additional land in the rear of Kimberly avenue school, a site which the board has been striving to obtain ever since that school was built, at \$2,000. Then comes the large sum of \$110,000 which is in for a new school site and building in the Welch district to relieve the overcrowding there. More land is wanted at Greene street, at the cost of \$500.

(Continued on Second Page.)

WEATHER RECORD.

Washington, Oct. 9.—Forecast for Thursday and Friday: For New England, rain and slightly warmer Thursday; Friday fair, increasing south winds. For Eastern New York: Fair and warmer Thursday, followed by rain in the afternoon or by night; Friday fair, fresh, probably brisk, south winds.

Observations at United States weather bureau stations, taken at 8 p. m. yesterday, seventy-fifth meridian time.
